Fieldlazer S90

Sport-Lines Europe and Graco proudly present the new Fieldlazer S90 and the new Sport-Lines spot colour: Simplicity thanks to the expert airless-technology with high pressure from Graco and the quality colour from Sport-Lines Europe. The combination of these technologies lowers the consumption to 5 l/pitch with a super white result.

- EXCEPTIONALLY ECONOMIC
- Very high degree of coverage
- Exceptionally cost-saving
- Exceptionally fine atomization
= much shorter drying period
- No more need for mixing
- Ecologically tested
- Huge time saving for groundkeepers
- No lump formation or precipitations

Thanks to the very small nozzle the consumption of colour is drastically reduced.

Marking with motor and compressor!

Vinda string vehicle

The perfect tool to measure the lines.
Knotting no longer possible, easy handling
and can be operated by one person.

Just put the end of the string with the
knotted peg into the ground, release the
lock of the roll and go to the other end of
the desired marking. Fix the string vehicle
with the two welded bolts in the front,
tension the role and that's it!
Length of string: 120 m
